

# Colorado Talking Book Library

## Fact Sheet 2016

Many conditions interfere with reading such as arthritis, Parkinson's, MS, stroke, traumatic brain injury, learning disabilities as well as blindness and low vision.

"I lost a lot of my vision after a head injury. I thought I would never read again, but CTBL changed that. Thank you!"

CTBL serves 7,500 patrons statewide in every county.

However,

Approximately 450,000 Coloradans qualify for CTBL services. We want to serve more of them.

### Last Year CTBL...

- Informed 1,300 contacts statewide about services
- Patrons read more than 400,000 books
- Volunteers contributed 28,000 hours

"My son, who has dyslexia, listens while following along in the print book. This improves his vocabulary, fluency, comprehension."
